

March 22, 1984

LB 742, 852  
LR 244

SENATOR KAHLE: The Christian School bill.

SPEAKER NICHOL: No, no, no. We'll not start on that. We will start on that this afternoon. I think, Mr. President, we will go to 244CA and see if we can't get one or two of these out of the road by noon, if not, after lunch we will jump to the back of the agenda of course and take up special order, priority bills, and hopefully by four o'clock we will be at the point where we can take up the Christian School Bill, 928, at approximately four o'clock. So, whatever you can get done between now on the priority bills.

SENATOR KAHLE: Thank you, Mr. Speaker. We will be taking up LR 244CA.

CLERK: Mr. President, first of all I have amendments from Senator Barrett on LB 742 and Senator Beyer to 852. (See pages 1788-1789 of the Legislative Journal.)

Mr. President, LR 244 was one introduced by Senator Schmit. It will propose a constitutional amendment to Article 13, Section 1 of the Constitution of Nebraska. The resolution was considered by the Legislature on March 20, Mr. President. At that time, and pending before the Legislature at this time, is a motion by Senator Warner to indefinitely postpone the resolution.

SENATOR KAHLE: Senator Warner on the kill motion.

SENATOR WARNER: Mr. President, in view of the time I will make my remarks short because I imagine with the time lapse between we last discussed this issue and today everyone has been convinced one way or another what they are going to do. My concern with...strangely enough, some of those who opposed the bill because it may provide funds for large impoundments of water, is not the reason I oppose it. I'm not sure I would oppose it if that was the provision. What I do have a concern about is how broad it is. It is so broad and can cover so many potentials of water treatment, sewer sanitary systems, as I understand it at least, municipal systems, I don't know where the bond size would end but I have a concern that it would easily be interpreted
